All the members were asked to present their ideas and thoughts regarding the functioning of the association. Some of members presented their ideas:

Abhinav:

- Watching films — thematic and inclusive — and discussing it keeping in the duration
- Celebrating birthdays, once in a month
- Collection of songs, folklores, bhajans, etc. in the local languages and dialects
- Sharing thematic self-clicked photographs

Abhinav Raj:

- Publishing Yearbooks

Kumar Gaurav:

- Creation of Study Groups/Discussion Circles dealing with Indian Philosophy/ Area Studies/ Foreign or Indian language learning
- Collection of collective bibliographies
- Opting for a common MOOC
- Creating repositories

While discussing the ideas mentioned above, Kumar suggested that regulatory frameworks should be designed for these provisions and that we have to distribute these portfolios among the members. In this regard, Abhinav Raj agreed to volunteer for photography, Nandani was given the charge of birthday celebrations and Abhinav assumed the responsibility of film screening.

Following this, Kumar suggested creating a website for this association and handed over this task to Abhinav. In addition to this, he also underscored the need for an official name and a logo for the association. So, the members were requested to give their suggestions regarding this prior to the next meeting that is supposed to take place on the next Saturday i.e. July 05, 2025.
